

COMPLIANCE PROGRAM OVERVIEW

1. Company Profile

- Name:** Apex Manufacturing
- Product:** Industrial IoT Sensors (Smart Home tech)
- Users:** 100 employees (30 corporate, 70 Operations)
- Location:** One headquarters with an attached manufacturing plant.

2. Asset Inventory

Asset Category	Examples in Apex Mfg	Why it Matters (Risk)
IT Systems	Office 365, ERP System, Customer Database	Loss of customer data = Legal fines/reputational damage.
OT Systems	SCADA Server, PLCs, Robotic Arms	Downtime = \$10k loss per hour. Safety risks to workers.
Data	Product Blueprints (IP), Employee PII	Competitors stealing designs.
Personnel	Plant Operators, IT Admins, Third-party Vendors	Insider threat or accidental misconfiguration.

3. The Scope Statement

The scope of this Information Security Management System (ISMS) includes the Production Network (OT) and Corporate Management Network (IT) at the Apex Manufacturing facility, specifically focusing on the data flow between the ERP system and the factory floor SCADA servers.
